An Assessment Report Request (ARR) communicates to your third party the type of HITRUST Assurance Report your organization is requiring.

HITRUST Readiness & Validated Assessment Portfolio
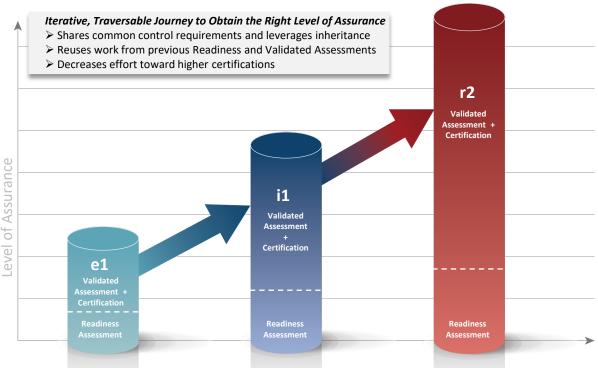

HITRUST e1 Essentials Self-Assessment

Can be used as the final assurance destination for low-risk business partners or as a starting point to higher levels of HITRUST assurance.*

- Available exclusively from the HITRUST XChange.
- No cost to vendors since e1 Self-Assessments are included in XChange subscriptions.
- e1 Self-Assessments introduce HITRUST methodologies from which vendors gain valuable expertise.

*e1 Self-Assessment work cannot be reused in e1, i1, or r2 Readiness or Validated Assessments.

Iterative, Traversable Journey to Obtain the Right Level of Assurance
- Shares common control requirements and leverages inheritance
- Reuses work from previous Readiness and Validated Assessments
- Decreases effort toward higher certifications
